NOTES AND ORDERS.

It is reported that the Balipeeta in the Temple is not in a stable condition for which reason the D.C has proposed that it may be lowered, as recommended by the Renovating Committee of the Temple Dharmadarsi, and local Officers. The Agents of the M.C's Office have no objection to the proposed that the Balipeeta should be re-constructed on the same spot keeping

NOTES—First Sheet

WD 0245—GPL—2,500—23-8-32

of it at ~~the~~ its present height, a platform of suitable height being constructed if necessary at the bottom. As a sum of Rs 52,000 was recently sanctioned* for the renovation of the temples at Belur and Halebid, there will be no difficulty in finding funds for this work. If the Bali peeta is placed on a concrete foundation and a stone foundation and platform it will stand firmly and there will be no necessity to lower it to secure a firm foundation.

23.7.36.

The proposal of the Muzrai Commr may be approved.

Secretary to the Government of His Highness
the Maharaja of Mysore,
General *Department.*

31-36-1

GENERAL DEPT.
14 JUL 1936

SIR,

Lowering the Balipeeta of the Sri Chennakeshavaswami Temple at Belur.

Adverting to Government Order No.1505-7/Muz. 235-34-2 dated 15/16th May 1935 directing that the Balipeeta Garuda and the Dhwajasthambha may be left undisturbed, I have the honour to forward herewith a copy of letter No.C.16-35 dated 1st July 1936, from the Deputy Commissioner, Hassan District, in the matter and to state as follows:--

2. The Deputy Commissioner proposes that the Balipeeta may be permitted to be lowered as it is not in a stable condition and as the Renovation Committee, the Dharmadarsis and the local Officers have all recommended for lowering it.

3. The Agamiks of this office who were consulted in the matter have stated that the Balipeeta may be removed after necessary Kalakarshane but the Peeta to be reinstalled should be of the same height as the original. The report submitted by them is sent for perusal.

4. In these circumstances, I recommend that the Government Order may be modified so far as it relates to the Balipeeta with the direction that it should be reconstructed on the same spot keeping the top level to the original height, providing a platform of suitable height at the bottom, if necessary. I solicit the favour of early

P.T.O.

early orders as the Peeta is said to be in a dangerous condition.

5. The connected papers received from the Deputy Commissioner are enclosed.

I have the honour to b

S i r,

Your most obedient servan

/W Ansom Tourell

Muzrai Commissioner.

Letter No.C.16/35 dated 1st July 1936, from the Deputy Commissioner, Hassan District, to the Muzrai Commissioner in Mysore.

Subject:-- Re: lowering the Balipeeta of the Sri Chennakesavaswamy temple at Belur.

In forwarding herewith the connected record ending with the Hassan Division Executive Engineer's letter No.972 dated 21st June 1936 relating to the above subject, I have the honour to state as follows:--

2. The Sub Overseer in charge of the renovation works of the above temple having reported to the Assistant Engineer, Sakleshpur, that the Naganayakana Mantap which was situated in front of the Sri Chennakesavaswami Temple at Belur and which was also siding the Balipeeta was dismantled, that the Balipeeta is standing on sand-bed, in a dangerous condition, and that the same may collapse on account of rains and requesting permission to lower it early, so as to avoid damage to the same, the Sub Division Officer, Sakleshpur, had been asked to issue instructions to the concerned staff to arrange for placing the Balipeeta at the disposal of the P.W.D. for taking needful action.

3. The Amildar to whom the matter was referred has placed the question before the temple committee members and they have resolved at their meeting held on 19th May 1936 that this being an urgent work to be carried out, a sum of Rs.4/- may be sanctioned out of the temple funds and paid to the Archak for the performance of necessary Kala Akarshana Vidhi. (ಕಲಾಕರ್ಷಣವಿಧಿ).

4. The Amildar is also of opinion that the Balipeeta may be lowered.

5. The Sub Division Officer states that both the proposals i.e., payment of Rs.4/- from temple funds for Kala Akarshana Vidhi and permitting the lowering of the Balipeeta may be accepted.

6. The Executive Engineer, Hassan Division, states that the Balipeeta may be lowered immediately and that the proposal along with dismantling of the Garuda Shrine is approved by the renovation committee. A copy of the letter No.945 dated 10th June 1936 received from him stating that the cost of permanently erecting Balipeeta at proper level will be met out of the temple renovation grant of the year 1936-37 is also

enclosed for reference.

7. During the year 1934-35, a provision of Rs.200/- was made in the renovation estimates for the removal and replacing etc., of the Dhwajasthambha, Balipeeta, and Garuda Shrine, but the Government have, in their order No.1505-7/Muz.235-34-2 dated 15/16th May 1935 communicated with your memo No.H.C.53/34-35 dated 23rd May 1935 directed that these may be left undisturbed.

8. A sketch showing the position of the Balipeeta etc., is also enclosed for reference.

9. Under the circumstances, explained by the Executive Engineer, I request you to be so good as to pass early orders for lowering the Balipeeta, which is stated to be in a dangerous condition.

10. The enclosures, may kindly be returned when done with.
